

RECORDS OF BUCKINGHAMSHIRE

Volume 34 1992 (Published 1994)

A fourteenth-century 'modernisation'. This crown-post was inserted in a thirteenth-century house in order to bring it up to date in the early fourteenth century. (See page 14 *et seq* inside).

CORRECTION

The 'Acknowledgements' paragraph of 'The County Museum Buildings' in Records 33 (for 1991) unfortunately gave currency to an absurd misunderstanding that arose in the course of investigating the buildings: that a helpful member of the County Architect's staff was the County Architect himself. We are glad of this opportunity to make it clear that the County Architect is Mr Eden Lee, MSc, Dip Arch, RIBA, FRSA.
